

Thank you for downloading my product. That means you like it as much as I do! I love making things and sharing them with you. Some for free, and some for a reasonable price. Because I put a lot of time and effort in it, I'd like you to read the following rules, to make sure my hard work gets the credit it deserves.

- All designs are copyright Little Lovely Crafts. You have permission to use my products, as long as you adhere to the following terms.
- Everything that I put on my website is for personal or classroom use.
- It is allowed to use something as a gift, but it is not allowed to share your (purchased) downloads with anyone else. Please refer them to my website so they can purchase/download it themselves.
- You may not copy, reproduce, sell, modify and/or claim it as your own.
- Please leave the name Little Lovely Crafts on your printables.
- Ask permission if you would like to use one of my photos.
- If you want to tell others about my product on your website or blog, do so by using the link: www.littlelovelycrafts.com, or by using a direct link to the product.
- When you download or purchase something, you agree with all the above.

Thank you and enjoy!

Felt bee template and tutorial

I've always loved making little figures out of felt sheets. Recently I made Red Riding Hood along with the wolf, hunter and grandmother. Those templates will be available once my my webshop is online. In the meantime you can try out this cute bee template for free! It's easy to use. You just print the file, cut out the shapes, cut the felt and sew everything together. Follow the ten steps below for a more precise description. Have fun making this cute bee!

You will need:

1. The printed template
2. A printer and some paper
3. Black chenille stem
4. Two tiny black pom poms
5. Yellow felt
6. Black felt
7. White felt
8. Toy stuffing
9. Yellow thread
10. Black thread
11. White thread
12. A needle
13. Fabric scissors
14. Glue

Step one: Print and cut out the paper shapes.

Step two: Place the shapes on the desired colors of felt and cut out the shapes.

Step three: Sew the black stripes on both yellow body parts.

Step four: Sew the black top of the head on the yellow head.

Step five: Sew a face on the yellow head (two eyes and a mouth).

Step six: Cut two antenna's out of the chenille stem and sew them on the black head. Glue the black pompoms on the antenna's.

Step seven: Sew the two body parts together. When it's almost closed up, add some toy stuffing before closing it up.

Step eight: Sew the two head parts together, but leave the bottom open. Add some stuffing.

Step nine: Place the body a little bit into the opening of the head. Sew everything together.

Step ten: Attach the wings to the back of the bee and you are done!

BEE

Antenna 2x

I made these with chenille stems and tiny pom poms from Hobby Lobby

Black top of the head 1x

Head 2x:

front face yellow
back black/yellow

Body front & back:

2x yellow base
2x black stripes

Wings 1x

Or 2x if you want them a bit thicker and firmer
